

Peat trailer JPV-45

The JPV-45 can carry 39-45 cubic metres of peat. It is equipped with rubber tyres at the front and rear, and it can be equipped with either a normal or drive axle. With a drive axle, the trailer can be driven onto the stockpile. Tipping is performed on both sides.

For increased efficiency, two trailers can be coupled one behind the other. Vapo's trailers are equally suitable for transporting milled and sod peat. The JPV-28 is also still available.

Technical data

JPV-45

Tractor type	4-wheel drive agricultural tractor
Required engine output	85-110 kW
Capacity	39-45 m ³
Weight	7800 kg
Mounting	towing hook
P.T.O.	1000 rpm
Required hydraulic outlets	1 pc, 2-way, 1 pc, 1-way
Length	11900 mm
Width	3980 mm
Height	3700 mm

JPV-28

Tractor type	4-wheel drive agricultural tractor
Required engine output	70-100 kW
Capacity	28 m ³
Weight	approx. 4500 kg
