

## SOD PEAT LOADER PKS-9

High capacity, effective screening and good reliability — these are the factors behind the success of the PKS-9. The loading height is adjustable. The short transport range means that the peat is

loaded into a trailer drawn along the same strip. The sod peat loader can also be used in the ridge drying method.

### Technical data

Tractor type	4-wheel drive agricultural tractor
Required engine output	50-70 kW
Working capacity	450-900 m <sup>3</sup> /h
Weight	approx. 4500 kg

*Working with nature*
